Councilwoman Hahn Greenlights Funding for Gaffey Street Bridge Makeover

Councilwoman Janice Hahn today approved the transfer of \$90,000 for design improvements to the Gaffey Street Pedestrian Bridge. The funding comes from the Community Redevelopment Agency (CRA) which will transfer the funds to the Department of Public Works to enable technical studies and design services for the bridge.

“This bridge serves as the gateway to San Pedro – it is the first thing residents and visitors see when they come into our town. These much-needed improvements will not only make the area more pedestrian-friendly, they will also highlight its beauty and will serve as a symbol of a revitalized San Pedro,” said Councilwoman Hahn.

Out of the \$90,000 in AB1290 funds for the project, \$76,700 will come from the Beacon Street Redevelopment Project Area and \$13,300 from the Pacific Corridor Redevelopment Project Area, in which the bridge is located.
